“A Laboratory Management Partner”

Florida Analytical, Inc.'s Lab Can Be of Assistance Regarding *Non-Transient Non-Community Water System* (NTNCWS)

As you are aware of, Non-Transient Non-Community Water System is a public water system that regularly supplies water to at least 25 of the same people at least six months per year, but not year-round. Some examples are schools, factories, office buildings, and hospitals which have their own water systems.

If your facility is considered to be a Non-Transient Non-Community Water System, Florida Analytical, Inc. can assist you with meeting the requirements you are to comply with.

Who We Are

Florida Analytical, Inc.'s (FAI) laboratory has served the environmental community since 1975. Located in Lakeland, Florida, the facility is owned and operated by Laboratory Management Partners located in Memphis, Tennessee. FAI is capable of providing precise and accurate analytical results for regulatory reporting. FAI's laboratory is certified by the state environmental regulatory agencies in Alabama, Florida, Georgia, Kentucky, and Tennessee.

Analytical Quality Control

FAI's laboratory personnel are dedicated to the maintenance of quality control programs that assure the highest possible degree of accuracy and precision. Strict adherence to Standard Operating Procedures for Quality Assurance/Quality Control is maintained at all times. Quality control is an integral part of FAI's laboratory routine.

Standard Turn Around Time

The standard-turn-around-time for samples after arrival in the laboratory is ten business days. Rush analysis and even 24 hour turn-around times may be available depending upon the analysis. Contact FAI Environmental Laboratory for further information.

With FAI, you can rest assured that your laboratory samples are being handled by a lab that meets the highest possible standards.
